Cybox 530T Treadmill Owners Manual

Used GoodPlease try again.Please try again.Please choose a different delivery location.Register a free business account Please try your search again later.Key safety features are also built in, including a safety lanyard and Safety Sentry automatic shutoff. The large intuitive display simplifies programming and operation. Split Display with the console itself is designed to match the way you use a treadmill. By separating the console into two parts, youre given the ability to use what you want and when. The Stableflex Suspension system absorbs impact where needed for optimal comfort and running efficiency.To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Drive belt edges are securely covered to prevent fray, dirt buildup, and the potential for shoe laces or other items getting caught in the belt. Key safety features are also built in, including a safety lanyard and Safety Sentry automatic shutoff. By separating the console into two parts, youre given the ability to use what you want and when.The Stableflex Suspension system absorbs impact where needed for optimal comfort and running efficiency. Check out our easy to read Cybox Treadmill Comparison Chart! Be the first to write a review. Cant find link Login to post Usually no belt movement is bad or short motor brushes. I would start there first.This information can be found on page 65. You can use this manual to determine the steps required for checking the above mentioned items. The Cybox 530T Pro Plus treadmill provides club users with an easy to use treadmill, amenities of a 5star treadmill. The Certified PreOwned Cybox

530T Pro Plus treadmill provides club users with an easy to use treadmill and the amenities of a 5star treadmill. The health club owner benefits with high durability and attention to safety.<http://www.monstergarage.com.hk/blog/dsc-power-series-1832-installation-manual.xml>

By separating the console into two parts, weve given you the ability to use what you want and when. These also keep things like fingers and towels from getting caught. It will stop the belt after the preselected waiting period helping to keep members safe this does not take the place of the Safety Lanyard, it works with the system. A multicolored heart shaped LED provides colorcoded feedback of your heart rate. Certain commercial units may be eligible for upgraded extended warranty for units going in to a pure residential setting, please ask for details. Product does in fact need a 20 amp dedicated line. Call 8662035770 Now! It arrived in like new condition. The sales staff as well as Marc the owner were a pleasure to work with. Amarillo TX. From my first contact with them to my last encounter, they went above and beyond to provide not only the best competitive pricing but additional perks that even made a sweeter deal. I was treated like I was the only customer that they had which I knew they had numerous and was given their total attention each time that I talked with them. Because of my indecisions and delays, they went out of their way so that I received my heavy equipment fast and delivered right at my doorstep. I contacted three other competitors for pricing and never heard wordone from them. Total Body Experts was on the phone the very next day assisting me in making a great decision on the selection of my equipment. I would highly recommend this company, they are very knowledgeable. Redwood City CA. Here is a tip we wrote not too long ago, we hope it helps; as for your question about the individual replacement of the bearings, yes it is possible but a very difficult process especially for the Front roller due to the Pulley that is pressed on there. If you need any Technical Support you can contact us by chat at www.sportsmith.net or by phone at 8887132880, we might also have a replacement for the part youll end up needing. We look forward to hearing from you!

Unit will go into diagnostic mode. Let unit run its course and slow completely then hit stop. Are you getting any error codes. Usually no belt movement is bad or short motor brushes. I would start there first. First thing to check is motor brushes. Make you do not stand on the belt when starting treadmill; you want to let the belt get going then start walking on it. Lift the console and confirm that the cable connections are secure. Remove the cover from the consoles battery bay and install a fresh set of batteries. Replace the battery cover. 2 Detach the ends of the pedals from the crank axles. Remove the left and right disc shields and side shields. Inspect the interior of the base unit and locate the flywheel. 3 Inspect the flywheel as it turns. Locate the magnet installed on the flywheel. Turn the flywheel until the magnet passes in front of the nearby reed switch. Loosen the screw securing the switch in place. Rotate the switch to reduce the gap between it and the magnet. Tighten the screw. 4 Replace the left and right disc shields and side shields. Reattach the ends of the pedals to the crank axles Good luck, sincerely. Gd bless you. E. CUADRA MANAGUA, NICARAGUA. C.A. I purchased this treadmill used from a snap fitness and it didn't have the lower control pca. I replaced the pca 2 days ago, tested the treadmill, worked great. Yesterday, I ran 1 mile on the treadmill, worked great. Today, I go to start the treadmill, it immediately starts fast and runs for 12 seconds, then stops and gives error code 6. I ran it through the speed calibration program with no luck. Replacing it merely extended time until it failed again. Why doesnt the motor start Do you sell this part I found this in an amazon review; 5.0 out of 5 stars Love the machine, just have one issue The machine is great, and I found my error on how to get customer service. HCI Fitness is in Seattle, and looks like who I'd contact to resolve any further service problems.

However, there are plenty of refurbished editions of the 530T on the market, today, which is good news for consumers, as it was actually a great treadmill option at its price point. Have you ever stepped onto a treadmill at the gym, embarrassment making your face even more red than the other exercise machine you just stepped off of, as you try and figure out how to turn the treadmill on. Even worse, once it's on, you don't know how to easily customize the workout to be optimized for you and your workout plan. The 530T is the antidote to complicated treadmills, and has one of the most intuitive and selflearning quick start options. The highly effective suspension system will absorb the impact as your feet land on the surface of the track, and the incline feature helps you customize your workout to make it significantly easier or more difficult as you're going. This works wonders on the roomy 60" x 20" running deck.

It has a convenient "Quick Start" key that will let you begin your workout, and customize it after your workout has already started, if that's what you're wanting to do. It also features a live keyboard that allows you to change the program or any setting without having to stop and restart the whole program. One of the more remarkable features of the Cybex 530T, is that it has implemented a safety system. Essentially, it can sense whether or not someone is actually on the treadmill. If you are not standing on the treadmill, it will immediately stop. The Cybex 530T motor is exceptionally quiet, yet can generate 5.0 horsepower! Because of this, the treadmill can handle a max carry weight of 400 lbs all the way up to 12.4 mph. To find a suitable replacement, check out our treadmill finder here. The Cybex 525T is a longlasting luxury treadmill for use in clubs and home gyms. It is entry level for this brand, but it's far superior to the top treadmills from other brands. The 525T is made in the USA from heavy steel and premium parts. The E3 gives viewers a choice of entertainment, exercise and "escape" modes. This treadmill is designed to suit most walkers and

runners. Preset workout modes include manual, four weight loss, four cardio, and heart rate control. These preset programs each have 10 challenge levels and automatically control the treadmill's incline. Another great feature is Intelligent Suspension. This is a variable cushioning system that provides the most support at pushoff and the most cushioning where a trainee lands. Finally, it's worth mentioning that custom colors are available for Cybex treadmill frames. Just about any color is possible. This is the smallest in the Cybex collection, but it's full-sized and durably designed. It has handrails for safety. Cushioning The 525T Treadmill has IS3 Intelligent Suspension System, which is designed after what Cybex calls "the best running shoe."

” Essentially this is a variable cushioning system that provides more cushioning up front and more firmness at the back of the track where a person pushes off. Automated Incline The track can be used at inclines of 0 to 15%. Incline controls are included on a cross bar for convenience. Console The display is simple yet includes all the info that most people care to know. A graphic display of the workout profile is shown via an 8.5 LED, and the readouts are time, calories, distance, pace, incline, speed and heart rate. Heart rate range is indicated with a multicolor monitor. Mobile devices can be controlled with buttons on the treadmill. Heart Rate Contact and wireless heart rate monitoring are supported. Programming The presets include manual mode, four weight loss programs and four cardio programs. The weight loss and cardio programs have 10 levels each. Languages The LED monitor can be used in English, Spanish, French, German, Russian, Chinese, Japanese, Danish, Dutch and Swedish. Powerful Motor — The Cybex 525T has a high-powered yet quiet 5 HP motor. It supports a high speed of 4 mph. Convenience Features Speed and incline controls are located on a cross bar. This model also has two large water bottle holders, a magazine rack and a utility tray. Safety Key A safety lanyard can be used to stop the treadmill in case of emergency. High Capacity The 525T has a 350-pound user weight capacity. Color Choice Customers get a choice of seven standard frame colors: Black Chrome, Nightstorm Black, Cumulus White, Platinum Sparkle, Arctic White, Eclipse Black and Metaltone Gold. Additionally they can choose from a wide selection of premium and custom colors. Good Warranty This expensive investment is protected with a good warranty. Commercial customers get three years of free parts replacement, one year of free labor and ten years of protection for the frame. Residential customers get an even better deal with five years of parts replacement.

No Fan This treadmill lacks a fan for keeping the user cool. Our Verdict The Cybex 525T Treadmill is a nice choice for light commercial gyms or at-home luxury. It isn't as spacious as other Cybex treadmills, but it gives most people more than enough room to exercise comfortably. If your budget is big, go for it. Update This model has been discontinued.
