Setting the proper height allows your baby to use the walker as intended. You can easily adjust the height of the walker to fit your little one. Step 1 Remove your baby from the walker before adjusting the height. Step 2 Twist the height adjustment button clockwise to unlock the adjustment feature.

The button is located on the front of the walker under the tray. Step 3 Press and hold the height adjustment button with one hand. Step 4 Raise or lower the tray to the desired height with your other hand. Step 5 Turn the height adjustment button counterclockwise to lock the adjustment feature. Step 6 Set your baby in the walker to check the height. He should stand comfortably with both feet on the floor when the walker is at the correct height. Warnings The American Academy of Pediatrics does not recommend the use of walkers due to safety hazards such as a baby rolling down the stairs, reaching items on tables or stoves, falling into a pool or bath, or reaching poisonous objects. Baby should be supervised at all times when in a baby walker. About the Author Tamara Runzel has been writing parenting, family and relationship articles since 2008. The minnie mouse walker is very easy to assemble. It took maybe 5 minutes to assemble and you only need a screw driver for the musical ball. This walker doesn't leave any scratches or any marks on my hard wood floors and it is easy for her to use on the carpet. The seat is easily removable and easy to wash the tray and walker are easily washable too. You can use it as a fun activity to keep her busy while you do things or you can remove the 2 toy trays and there's just a regular tray underneath which is excellent for feeding them in or to give them a little snack. I have found this to be very handy to take somewhere we will be for awhile like family or friends houses cause we can feed her in it and she can sit in play in it and not be bored or be getting into things.

It folds up nice it would fit in a trunk easily and it folds up well enough to fit in a small closet to store it also. It's a great quality walker it is very sturdy. They're not just toys to look at they make noise and one even lights up. I would highly recommend this walker to anyone looking for a walker it's hours of fun. It is for a girl but they were all sold out of the boy ones but this still works great for him.

My husband put it together and it did not take long at all and it was very easy to put together too. There are 3 settings heights on here. I have it set on the lowest setting. Your baby girl will love this. It has 3 different toys you attach to the top of the walker and a music button too that when you push it, it makes music, it plays 12 tunes and has lights in it. The 3 toys make noise when played with also. I have an older niece that is too big for the walker but she likes playing with the toys on it too. I recommend this walker. My nephew is enjoying it. I like the colors on it too. It has a bright pink color and a light green and light purple color all over it. The seat part he sits in is all bright circles of reds, purples and greens and it is machine washable. I am going to post a couple pictures and a short video on here for you to see it. Thank you Walmart Spark Review for letting me try this out for my nephew. It definitely comes in handy and I do recommend it. You also have to attach, put on the wheels and it can roll over bare floors or even carpet. The name of the brand is Safety 1st. I have used other products by Safety 1st and have had no problems with their product. See more Reviewed by ardaawd ardaawd Spark Reviewer Top 250 contributor Helpful. Yes 23 No 8 Report Average Rating 5.0 out of 5 stars THE MOST ADORABLE WALKER!!! April 30, 2015 This Minnie

Mouse Walker is absolutely wonderful. It is very easy to assemble and absolutely adorable with its Minnie Mouse pattern. It has comfortable padded seating and a Minnie Mouse Musical Light up Globe. I do think that the music sounds a little like a toy radio and could be more pronounced with a bit of base to add a bit more of luxury to the Minnie Mouse Walker. But that alone would not keep me from buying it. The Minnie Mouse Globe plays nursery rhymes and the lights on the globe flash to and fro when baby turns the globe. So it will need 2 AA batteries which are NOT included.

This walker rolls well on hard wood or linoleum floors but not on thick carpet. I feel very safe placing my granddaughter in it because not only does she love playing in it, but she cannot reach anything that could hurt her. She can get the exercise that her little legs need and still bounce off of my cabinets or furniture without it hurting her or causing any damage to anything in the house. The seats are very easy to clean if baby spills anything on it. It has been my experience that this walker it is very helpful in keeping baby occupied while I do just a bit of housework. Yes 11 No 3 Report Average Rating 5.0 out of 5 stars she loves it May 13, 2015 This Minnie Mouse Walker is great. Its easy to assemble and very cute and colorful with its Minnie Mouse pattern. I like the padded seating and a Minnie Mouse Musical Light up Globe. My grand daughter is delighted with it. The Minnie Mouse Globe plays nursery rhymes and the lights on the globe flash back and forth when baby turns the globe, but it will need 2 AA batteries which are NOT included. I have the rechargeable type, so it works out very well. This walker rolls well on hard wood or linoleum floors but I dont know how it is on carpet. All of my carpet is upstairs and I would never put her in a walker so close to stairs. The seat is very easy to clean when she spills anything on it. It has been very helpful in keeping baby occupied while I do my housework, before I had this I was putting her in her stroller and bringing her room to room as I did my cleaning and chores, but a stroller does not keep a baby interested. March 30, 2016 This Safety 1st Developmental Walker is very colorful and has several attachable toys to help entertain and keep your crawling baby involved. The maximum weight is 30 lbs and requires an adult assembly required. Keep the small parts away from children while assembling and save your instructions for future use, because this walker can be unfolded and reassembled again and again. The seat liners a real doozy to get in, but can be accomplished with persistence and reading the directions again. The tray contains ability to hear sounds, music and interaction with the colorful toys. Before using please wipe off all surfaces with soapy hot water, rag and rinse. Make sure child is never left unattended or left where there are stairs or heat sources. The legs can be adjusted higher as the child needs them to be, to remain comfortable. Cute colors, soft and cushiony seat in polka dots, aka, like Minnie Mouse, entertaining toys to play with, and easy wheels that move on most surfaces. Yes 6 No 1 Report Average Rating 5.0 out of 5 stars Lovely and fun for your little one. March 21, 2016 This Disney baby Minnie Mouse Music and Lights Walker is so much fun for your little one. It is made really well and the wheels on the bottom are sturdy and roll well. I love the cute dot pattern seat and the back has lots of padding to make your little one comfortable. I love that the seat is machine washable because little ones tend to drop food or spill their drink. I really didnt have any problems with assembling it. I just needed to look at the instructions pamphlet for inserting the trays and getting the seat secure. I love the cute toys that this walker comes with. Daisy duck is on an arch that has a movable butterfly. Figaro the cat is another toy that your baby can move side to side.

Theres a pretty tree that youre baby can turn round and round and my daughters favorite is the Minnie Mouse globe that has music and lights. It plays several songs and to activate it you just turn

the globe once. You do have to put two AA batteries in it that are not included. My daughter and I love Disney baby products and we are so happy to own this lovely Minnie mouse walker. I highly recommend it to my friends and family and we all are big Disney fans. See more Reviewed by sspencervip sspencervip Top 500 contributor Spark Reviewer Helpful. Yes 6 No 3 Report Average Rating 5.0 out of 5 stars Just what baby needed November 21, 2016 Verified purchase Ive only had this walker for a couple weeks, but so far its great. With so many similar products on the market its extremely hard to decide between them. First I was looking for something that would entertain baby for a while and yet not take up a lot of space. My baby loves lights and music so this accomplished that, but unlike other music walkers it plays a bunch of short tunes not just one over and over great for my sanity. The trays under the toys let you put a snack there, mine isnt quite at that point yet but I open one and give her a couple extra toys since she plays with everything at the same time. Most importantly it wasnt unreasonably expensive, good price point for something they arent going to use forever. See more Reviewed by oregongirl oregongirl Helpful. The seat is really sturdy and holds the child well without slipping and sliding around. I like the adjustable height because babies grow so fast that you cant leave it at the same height all the time. The toys on the tray are very colorful and the music is loud and clear. The colors a very vibrant. It rolls easily but has nonskid on the back wheels for safety.

Yes 6 No 4 Report Average Rating 4.0 out of 5 stars Adorable March 25, 2016 The Disney Ready Set Music and Lights Walker, Minnie Mouse Dottie is really cute. I love all the toys that it has. They will keep my neice happy for hours. I took the walker out of the box and was a little worried cause Im not mechanically inclined. Well, it was easy to put together. Other than that, my son had no problem at all putting it together I had him do it for me. There is pull tabs on the bottom to open the toy tray so that the regular tray can be used for snacks. The walker rolls smoothly across the floor and it even rolls pretty easy on carpet too. I would recommend using mainly on floors without carpet or at least not thick carpet. The walker holds babies up to 30 pounds and has 3 height adjustments so it grows with baby. Only down fall, the wheels do not swivel so it makes it kind of hard to turn. I have only used it twice on carpet and it did not roll to well for me. Im not sure if its because my carpet is thick or not. I have used it plenty of time on tile, its great. The light and sound toy is the minnie mouse ball. The light comes from the base of the ball, whenever baby moves the ball, the sound will come on and so does the light. The other toys are nothing to write home about, but it has enough space if you want to hang another toy if you so choose. Yes I would recommend to a friend.
