And by having access to our ebooks online or by storing it on your computer, you have convenient answers with brother intellifax 2820 fax machine user manual . To get started finding brother intellifax 2820 fax machine user manual , you are right to find our website which has a comprehensive collection of manuals listed. Our library is the biggest of these that have literally hundreds of thousands of different products represented.

## Book Descriptions:

# brother intellifax 2820 fax machine user manual

Calls must be made from within that country. Register your product By registering your product with Brother International Corporation, you will be recorded as the original owner of the product. The contents of this manual and the specifications of this product are subject to change without notice. It is the final expression and the exclusive and only statement of Brothers obligations to you. It replaces understandings that you may have with Brother or its representatives. Warnings tell you what to do to prevent possible personal injury. Electrical Hazard icons alert you to a possible electrical shock. Hot Surface icons warn you not to touch machine parts that are hot. Cautions specify procedures you must follow or avoid to prevent possible damage to the machine or other objects. To prevent injuries, be careful not to put your fingers in the area shown in the illustration. The fuser unit is marked with a caution label. Please do not remove or damage the label. Load your document. Enter the fax number using OneTouch, SpeedDial, Search or the dial pad. Press to search the memory. Press Start. Making copies Single copy Press Copy to illuminate it in green. A1 Distinctive Ring. A2 Registering the Distinctive Ring pattern. S5 Printer. S5 Interfaces. S6 Download the optional software from the Brother Web Site FAX2820 and FAX2920 users only. S6 At the same time, you can download the manual for setting up and using the PCFax software. Special fonts identify keys you should press, messages that appear on the LCD, and important points or related topics. Bold typeface identifies specific keys on the machine's control panel. Put the machine near a telephone wall jack and a standard, grounded AC power outlet. Click Documentation. The following window will appear. Mac OS Doubleclick the Documentation icon. The select Language screen appears, doubleclick your language. It also inserts a pause in quick dial numbers. Note The Scan feature is not available for FAX2820 and FAX2920. <http://dljssxx.com/upload/brother-dcp-117c-manual.xml>

Using the automatic document feeder ADF FAX2820 and MFC7220 The ADF can hold up to 20 pages, feeding each one individually through the machine. While pressing the paper guide release lever, slide the adjusters to fit the paper size. Check that the guides are firmly in the slots. If you set Voice Mail and the Brother machine to answer after the same number of rings, there is no way of knowing which one will answer first. These are quiet, intermittent beeps every 4seconds. You'll hear them after you dial and press Start and they will continue for about 60 seconds after dialing. If you set up the Station ID the date and time displayed by your machine will be printed on every fax you send. If there is a power failure, you may have to reset the date and time. You can change the number of seconds or minutes the machine takes after the last Copy operation before it returns to Fax mode. There are two handset volume levels, Low and High. You can choose how long the machine is idle from 00 to 99 minutes before it goes into sleep mode. The timer is automatically reset when the machine receives a Fax or PC data or makes a copy. If it is not, press Fax to enter Fax mode. The default setting is Fax mode. How to dial You can dial in any of the following ways. Use Light to send a light document. Use Dark to send a dark document. If it is not illuminated in green, press Fax. The LCD shows the new job number. You can include Groups, OneTouch, SpeedDial numbers and up to 50 manually dialed numbers in the same broadcast. Your Cover Page includes the name stored in the OneTouch or SpeedDial memory. If you are dialing manually, the name is left

blank. The Cover Page shows your Station ID and the number of pages you're sending. These faxes will be sent at the time of day you enter in Step 4. If it is not illuminated in green, press Fax. You can choose the mode that best suits your needs. Afterwards, a Sequential Polling Report will be printed. If it is not illuminated in green, press

Fax. <http://stedivet.com/royal/userfiles/brother-dcp-150c-manual-download.xml>

When you dial a quickdial number, the LCD shows the name, if you stored it, or the number. Note If you lose electrical power, the quickdial numbers that are in the memory will not be. The machine can store 200 SpeedDial numbers. Rates may vary depending on the time and destination. To take advantage of low rates, you can store the access codes or longdistance carriers and credit card numbers as OneTouch and SpeedDial numbers. This activates your pager so you will know that you have a fax message in the memory. You can then use your PC to view and store these faxes. Before you use the remote access and retrieval features, you have to set up your own code. When you call the machine and enter your Remote Access Code 3 digits followed by give two short beeps and you must enter a remote command. Remote commands Change the Fax Forwarding, Paging or Fax Storage settings. Dial your fax number. When your machine answers, immediately enter your Remote Access Code 3 digits followed by hear one long beep, you have messages. If you set the interval to Off, you can print the report by following the steps on Printing reports. Enter Copy mode Before making copies, make sure that Copy is illuminated in green. If it is not, press Copy to enter Copy mode. Load your document. Use the dial pad to enter the number of copies you want up to 99. Press Start if you have finished choosing settings. Auto sets the machine to calculate the reduction ratio that fits the size of your paper. Custom50200% allows you to enter a ratio from 50% to 200%. The default setting is Auto. Suitable for documents that Auto contain both text and photographs. Suitable for documents Text containing only text. Suitable for copying Photo photographs. Press Copy to illuminate it in green. These settings will remain until you change them again. Important Changes or modifications not expressly approved by Brother Industries, Ltd.

Important about the interface cable A shield interface cable should be used to ensure compliance with the limits for a Class B digital device. Manufactured BROTHER TECHNOLOGY SHENZHEN LTD. NO6 Gold Garden Ind., Nanling Buji, Rong Gang, Shenzhen, China This product complies with FDA performance standards for laser products except for deviations pursuant to Laser Notice No. For the location of your nearest Brother Authorized Service Center, please call, In USA 18002844357 or In Canada 1877BROTHER. Important information Trademarks The Brother logo is a registered trademark of Brother Industries, Ltd. Brother is a registered trademark of Brother Industries, Ltd. MultiFunction Link is a registered trademark of Brother International Corporation. If this happens, your machine identifies the problem and displays an error message. The most common error messages are shown below. You can correct most problems by yourself. If you need more help, the Brother Solutions Center offers latest FAQs and troubleshooting tips. The USB or Parallel cable was unplugged while the computer was sending the data to the machine. The other person or other person's fax Disconnected machine stopped the call. Machine too Hot The toner cartridge is not installed No cartridge properly. The machine is out of paper or paper is No Paper Fed not properly loaded in the paper tray. Document was not inserted or fed properly, or was too long Open the control panel cover. Carefully pull the jammed document toward the front of the machine. Close the control panel cover. Pull out the drum unit and toner cartridge assembly. The jammed paper may be pulled out with the toner cartridge and drum unit assembly, or this may release the paper so you can pull it out of the paper tray opening. CAUTION To prevent damage to the machine caused by static electricity, do not touch. Pull out the drum unit and toner cartridge assembly. Open the back cover. 11 9 Pull the tab toward you to open the rear chute cover.

Pull out the drum unit and toner cartridge assembly. Hold down the lock lever on the left and pull the toner cartridge out of the drum unit. Ask the other party to send the fax again. If there is still a

problem, call Brother Customer Service at 18002844329 in USA or 1877BROTHER in Canada. Brother's ECM feature should help overcome this problem. This condition is related to the telephone system industry and is common to all devices that send and receive information on a single, shared line with custom features. Click Start and then Printers and Faxes. Make sure that "Use Printer Offline" is unchecked. For FAX2820 and MFC7220 When you turn off the machines power switch its memory will be cleared. To check whether the machine has faxes in its memory see Checking if the machine has faxes in its memory on page 116. In scanning. PaperPort Software Difficulties MFC7220 and MFC7225N only Cannot install software or print. Run the Repair MFLPro Suite program on the CDROM. This program will repair and reinstall the software. Printed pages are smeared. Printouts are too light. Network Difficulties MFC7225N only I cannot print over the Network 11 15 SUGGESTIONS Low quality thin or thick paper can cause this problem. Make sure you select the Paper Type that suits the media type you use. Call Brother Customer Service at 18002844329 in USA or 1877BROTHER in Canada. You may clear the problem by wiping the laser scanner window with a soft cloth. Keep all separate parts and printed materials to use with your "Exchange". Remove anything that is stuck inside the paper tray. Wipe the inside of the paper tray with a soft cloth to remove the dust. Reload the paper and put the paper tray in the machine. WARNING Just after you have used the machine, some internal parts of the machine are extremely HOT. When you open the front cover of the machine, never touch the shaded parts shown in the diagram below. Open the front cover and pull out the drum unit and toner cartridge assembly.

Clean the primary corona wire inside the drum unit by gently sliding the blue tab from right to left several times. Never touch the shaded parts shown in the illustration. Open the front cover and pull out the drum unit and toner cartridge assembly. We also strongly recommend that you continue to use only Genuine Brother Brand replacement toner cartridges TN350. Using or attempting to use potentially. CAUTION To prevent damage to the printer from static electricity, do not touch the electrodes shown below. Hold down the lock lever on the left and pull the toner cartridge out of the drum unit. Some ring patterns cannot be registered. The ring patterns below are supported by your Brother machine. Register the one your telephone company gives you. Ring Pattern Rings. You will need to set the Receive Mode again. See To select or change your Receive Mode on page 42. Caller ID Note The Caller ID feature lets you use the Caller ID subscriber service offered by many local telephone companies. This feature enables you to take a second call on your machine, without disconnecting the first caller. To answer a Call Waiting signal while you are talking on the phone, ask the other party if you can put them on Hold to catch the other call. The machine cannot hear CNG tones until the TAD has answered the call, and with four rings there are only 8 to 10 seconds of CNG tones left for the fax "handshake". Make sure you carefully follow the instructions in this guide for recording your outgoing message. Record 5 seconds of silence at the beginning of your message. This allows your machine time to listen for the fax CNG tones of automatic transmissions before they stop. The first two ways may require assistance from the telephone company. You can change the wall outlets from one RJ14 jack to two RJ11 jacks. Or, you can have an RJ11 wall outlet installed and slave or jump one of the phone numbers to it.

While it is often relatively simple to connect the machine to a key system or a PBX Private Branch Exchange, we suggest that you contact the company that installed your telephone system and ask them to connect the machine for you. Userfriendly programming helps you take full advantage of all the menu selections your machine has to offer. Since your programming is done on the LCD, we have created stepbystep onscreen instructions to help you program your machine. Most of the number keys have three or four letters printed on them. Distinctive Ring A subscriber service purchased from the telephone company that gives you another phone number on an existing phone line. The Brother machine uses the new number to simulate a dedicated fax line. G 1. OneTouch Keys on the machine's control panel where you can store numbers for easy dialing. FAX2820 and FAX2920 only You can store a second number on each key if you press Shift and the OneTouch. It is

used for regular size text and quickest transmission. Station ID The stored information that appears on the top of faxed pages. It includes the sender's name and fax number. Super Fine resolution 203 x 392 dpi. For transparency or label, we recommend removing printed pages from the output paper tray immediately after they exit the machine to avoid the possibility of smudging. Specifications and printed materials are subject to change without prior notice. Does not include the time it takes to feed the paper. For the latest drivers, go to the Brother Solutions Center at Dedicated "Scan" key and direct Network Scanning MFC7225N supported in Mac OS Processor. Drum Unit Life Expectancy DR350 Note There are many factors that determine the actual drum life, such as temperature, humidity, type of paper, toner you use and number of pages per print job. World Wide Web. i I 5. Simply cut out the card and fold it to fit your wallet or organizer.

Keeping it handy will help you derive the full benefit of your machine's Paging, Fax Forwarding and Remote Retrieval features. NOTICE The Ringer Equivalence Number is an indication of the maximum number of devices allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five. We cannot recommend. The driver supports our unique compression mode to enhance printing speed in Windows economy printing mode and custom paper size. How to print your document When the machine receives data from your computer, it begins printing by picking up paper from the paper tray. Set the Paper Size, Media Type, Paper Source, and other settings in the printer driver. Set the Paper Source to Manual. Select Brother FAXXXXXX USB Printer Where XXXX is your model name and if you are connected USB then USB will be in the printer driver name and click Properties or Preferences. The Printer dialog box will appear. Multiple Page The Multiple Page selection can reduce the image size of a page allowing multiple pages to be printed on one sheet of paper or enlarging the image size for printing one page on multiple sheets of paper. For the best print quality, select the type of media that you wish to use. When you set Toner Save to On, print appears lighter. The default setting is Off. Then, the Windows printer driver instructs you with a popup message to reinsert the paper. Before reinserting the paper, straighten it well, or you may get a paper jam. You can select one of the preset Watermarks, or you can use a bitmap file or text file that you have created. Check Use Watermark, and then select the watermark you want to use. The default setting for the Status Monitor is off. If you would like to turn the Status Monitor on, go to the Advanced tab, select Device options and then select Status monitor.

Click the Setting button to change the Date, Time, Position and Font. Web Update Web Update checks the Brother web site for updated drivers, and automatically downloads and updates the printer driver on your computer. Print Settings You can print a list of current printer settings. You can create a file in any application on your PC, and then send it as a PCFAX. You can even attach a cover page note. The user has the choice of two user interfaces Simple style or Facsimile style. To change the user interface select the interface setting you want Simple style or Facsimile style. You can choose the Simple Style or the Facsimile Style. Simple style Facsimile style 2 3. The Brother PCFAX Cover Page Setup dialog box will appear Entering Cover Page Information From Comment Type the comment you want to add to the cover page. Click Clear to erase it. Brother Address Book From the Start menu, select Programs, Brother, MFLPro Suite FAXXXXXX Where XXXX is your model name, and then click PCFAX Address Book. In the Address Book dialog box, click the delete icon. When the Confirm Item Delete dialog box appears, click OK. To import an ASCII text file From the Address Book select File, point to Import, and then click Text. From the File menu, select Print. The Print dialog box will appear Select Brother PCFAX as your printer, and then click Print. The Facsimile style user interface will appear, if it does not check the user interface selection setting as detailed on page 22. The Print dialog box will appear Select Brother PCFAX as your printer, and then click Print. The Simple style user interface will appear; if it does not check the user interface selection setting as detailed on page 22. Print settings Select the Quality and Media Type, and if you

want to use Toner Save Mode. Click the Brother Laser icon. On the right side of the Chooser window, click the printer you want to print to.

Note If you want to send a fax to more than one number, click Add after entering the first fax number. The destination fax numbers will be listed in the dialog box. Click Address Book button. Drag a vCard from the Mac OS application to the Destination Fax Numbers field. The Printer dialog box will appear When Printer is selected, the top button shows Print and the Address button is grayed out. We cannot recommend.
