The difficulty is a 4 because good casts are difficult to get if you dont have a decent method it could be frustrating. And due to the missable trophies, not following a guide could result in having to play Story Mode all over again and that means ALL of it from the beginning. Playing through once and cleaning up trophies in Trophy Chase mode is long enough. Introduction You will need to play through this game only once if you follow this guide and the following thread Story Mode Walkthrough with OPPORTUNITY HUNT LOCATIONS PS3Trophies.org Make sure you get the 20 good casts before the end of Story Mode see Casting Master and follow the walkthrough above while checking off the opportunity hunts. Those are the only things to worry about when attempting a finish in one playthrough. Abbreviated Walkthrough You should start with Story Mode because that is where you unlock items and earn trophy points. The trophy animals will not show up in Trophy Chase Mode until you get them in Story Mode. After this, move on to Trophy Chase Mode and get all trophies associated with this. Finally, use Trophy Chase Mode to clean up the remaining trophies. MISSABLE TROPHIES Casting Novice; Casting Expert; Tracking Master; Notorious Hunter; Casting Master; Opportunistic Hunter; Turkey Hunter STORY MODE Make sure you explore every possible area of the map so you dont miss any opportunity hunts. You are not able to go back and play Story Mode unless you start a new game. Dont worry about weaponspecific trophies. Some of the others will unlock within Story Mode. TROPHY CHASE MODE Focus on completing each animal hunt first. Save all remaining nonTrophy Chase trophies for last. CLEANING UP REMAINING TROPHIES Now you can view what you have left and complete them in Trophy Chase Mode. Greenhorn Complete first hunt from the game This will come soon after you start Story Mode. Fisherman Complete first fishing challenge from the game Once again, this will come in the first section of Story Mode.<http://021shxy.com/upload/ford-335-tractor-manual.xml>

Caribou Trophy Hunter Hunt 1 Caribou in Trophy Chase mode See Desert Bighorn Sheep Trophy Hunter. Pronghorn Antelope Trophy Hunter Hunt 1 Pronghorn Antelope in Trophy Chase mode See Desert Bighorn Sheep Trophy Hunter. Desert Bighorn Sheep Trophy Hunter Hunt 1 Desert Bighorn Sheep in Trophy Chase mode You unlock the trophy animals by completing Story Mode. For all of these Trophy Chase hunts, make the animal as big as you can, Monster and Albino. You'll know exactly which one to go after and have a big target. The mountain goat is already white, so make it a different color and you'll easily spot your target. Marksman Hunt 20 Big Game Animals using one shot per animal Big game animals are the deer, moose, goats, bears, etc. This is actually simple to pull off. When you're focusing on an animal and they're close enough, VITALS will be triggered, allowing you to view the weak spots Lungs, Heart, Spine. Hit a vital organ and they'll be killed with one shot. If you do not get this in Story Mode, it can be done in Trophy Chase Mode. Call Master Make 20 good calls The guide will want you to call an animal during the game. You will unlock Call Novice at that point.

You can then either spam the calls until this unlocks or you can play through Story Mode and get the remaining calls in Trophy Chase Mode. Tracking Master Examine 10 animal marks If you examine tracks, droppings and saplings whenever you come across them in Story Mode, you will get this by the end. It can only be done in Story Mode, so make sure you pay attention to the guide and the ground. Notorious Hunter Complete all optional hunts within at least one region See Opportunistic Hunter. Casting Master Make 20 good casts 2 This is the hardest trophy in the game. It can only be done in Story Mode. When you reach a good fishing spot, press R2 to place a buoy. Move the boat away from that spot and try to cast as close as you can to the buoy. The guide will say something if it's a good cast. If you fail your objective, the good casts you got within that attempt no longer count. This can be gotten in two simple ways 1. Each time you fish, get a few good casts and complete your objective. The amount of time to complete your objective goes up as you progress in Story Mode, so try for 5 or more in the later challenges. If you spread them out instead of going for them all at once, you can make it add up to 20 with no problem. 2. If you want to attempt to get 20 in one challenge, there is a fishing challenge towards the end of the game that has a 10 minute timer. That is plenty of time to get all 20 if you have the technique down. Integrity Hunt 10 trophies with 100% trophy integrity The trophy animals are your main targets for each section of Story Mode. When you retrieve your trophy in Story Mode or Trophy Chase Mode, you will see a percentage under Integrity. For 10 TROPHY animals, you must have 100%. You must use the recommended weapon for the animal or, the easiest way, use the Bow. If you do not have this trophy by the end of Story Mode, it can be done in Trophy Chase Mode. Just start a Caribou hunt and kill your target with the bow.

Keep playing the same hunt until the trophy unlocks. Opportunistic Hunter Explore and complete all the opportunity hunts Explore and complete all the opportunity hunts Unless you want to play Story Mode more than once, I recommend you explore every chance you get. For example, wander around or go the opposite way when the guide gives you an objective. There are 2 opportunity hunts in each

location, although I can only recall one in Alaska. Keep track of how many you've done in each location and if the trophy does not unlock after one opportunity hunt in Alaska, keep looking for a second. The following thread lists the main and opportunity hunts Story Mode Walkthrough with OPPORTUNITY HUNT LOCATIONS PS3Trophies.org Bow Mastery Hunt 5 animals using the bow You can shoot your targets or squirrels and raccoons with the bow. If you don't get this in Story Mode, it can be done in Trophy Chase Mode. Guns Collector Hunt animals using all guns from the game 1 You unlock weapons as you progress in Story Mode. It's best to just play through the Story and save this for Trophy Chase Mode if you haven't gotten it yet. Just cycle through your 12 weapons until it unlocks. You have to kill your target for the use of the weapon to count. Old School Hunter Hunt 10 Big Game Animals using iron sights This means you have to kill any big game deer, goats, moose, etc. without the scope. Equip your weapon and press the left directional button. You will remove the scope and be free to get this trophy. Save this for when you clean up your remaining trophies and get it in Trophy Chase Mode. You can complete a Caribou hunt 10 times to get this. Quick Hunter Hunt 10 animals from the hip 1 You can get this in Story Mode or Trophy Chase Mode. Whenever you come across a raccoon or squirrel, don't aim with the scope. Shoot and kill the animal and continue to do this to others until you get the trophy. Trophy Seeker Gather 200 Trophy points You get trophy points for completing objectives in Story Mode.

Examining animal marks also gives you trophy points. If you do just about everything through Kansas and Idaho, this will come by the middle of the game. Whats New New games, guides, reviews, and more. All rights reserved. The game is very enjoyable and will let you hunt the big game and fish for the big fish. The game is a very easy 1000 for the people who would like to boost their gamerscore or for the people who enjoy the hunting games. The game receives a difficulty score of two because although difficult at times, there's no reason that anyone should be unable to max the game with a little bit of patience and practice. This game is similar to Cabela's Alaskan Adventures, but without the problems. The controls are spelled out for you on the screen while you play. Introduction Welcome to Cabela's Outdoor Adventures 2010. This game has a total of 42 achievements, all of which are obtainable in offline modes. The achievements themselves are awarded for playing through the campaign and are awarded frequently. All the achievements are pretty straight forward and will be explained in the guide below. The game does not have any glitched achievements that I come across thus far. Step 1 Story Mode You want to start

off by playing through the entire story mode of the game. You may want to use the video guide [here](#). While playing through follow the guide below to make sure that you do not miss out on achievements because there is no level select in this version of the game. Make sure you don't miss any bonus hunts during the story mode. **Step 2 Trophy Chase** Now that you have finished the story mode of the game, you should move onto the Trophy Chase missions. Enter into the Trophy Chase option and you will get the opportunity to make you own version of the animal. I suggest that you make it as big as possible and make it albino. Making the animal as big as you can and making it albino will make the animal much easier to see when trying to find it. Start the hunt and run around the map looking for your albino creation and kill it. Do this for all the animals and you will unlock the Trophy Chase achievements.

Step 3 Clean Up At this point you may only have Bow Mastery, Gun Collector, Old School Hunter, and Quick Hunter Achievements left to get. Go back into the Trophy Chase mode and knock out these achievements and add another 1000 to your score. **Fisherman 5** Complete the first fishing challenge Complete the first fishing challenge and the achievement will unlock during the loading screen. **Call Novice 5** Make 1 good call You will get this achievement during the first duck hunt. You will be using the duck call. To use the call press and a guide will pop up informing you what is needed to be done for a good call. The guide will show you the track and you will have to press the button to examine the track. Once thats done, the achievement will unlock. The game will prompt you when you're near an animal mark. **Casting Novice 5** Make 1 good cast You will get this achievement during the first fishing challenge in the game. Watch your fish finder and when prompted press the to drop the buoy. Once the buoy is in place pull the boat around, so that the buoy is in front of the boat. Press to start fishing and press the to cast. You should be positioned far enough away from the buoy that the hook should drop next to the buoy. You will be prompted that it was a nice cast. If not, move the boat till you get the prompt when the lure hits the water. **Shotgun Mastery 10** Hunt 20 birds using the shotgun You will get this after your second or third bird hunt. This achievement will come just by playing the game. **Kansas Hunter 10** Complete Kansas region Complete the Kansas Region of the game. **Idaho Hunter 10** Complete Idaho region Complete the Idaho Region of the game. **British Columbia Hunter 10** Complete British Columbia region Complete the British Columbia region of the game. **Alaska Hunter 10** Complete Alaska region Complete the Alaska region of the game. **Merciful Hunter 10** Hunt 5 Big Game Animals using one shot per animal You will get this achievement just by playing.

Make sure when going for a shot you hit the animal in the vital organs i.e. the lungs or heart. Use the breath button to steady your shot. **Rifle Mastery 20** Hunt 10 Big Game Animals using the rifle You will get this by playing through the story mode of the game. Just make sure that you're using the rifle to kill the animal. **Pheasant Hunter 20** Complete all Pheasant hunts Just complete all Pheasant hunts of the game. **Moose Trophy Hunter 25** Hunt 1 Moose in Trophy Chase mode Hunt one Moose trophy in the trophy chase mode. You can get this achievement during the British Columbia hunts. The last hunt in the Idaho Region makes you use the pistol for your first kill with the pistol. The next mission will make you kill two more with a handgun. After that mission you will be hunting a deer from a tree stand. This is a hard and challenging shot, but can be done if you hit the vitals. You will then be required to kill a mountain caribou bull during the next hunt. To get the 100% make sure that you are using the correct caliber weapon for the right animal. This means that you don't use the .50 Cal Muzzleloader on a small deer. Select the weapon by pressing the and press the Button to bring up the different weapons.

For the 2005 video game, see Cabelas Outdoor Adventures 2005 video game. It is the second game in the series to be released on the seventh generation consoles, as well as on PlayStation 2 and PC. There are over 50 hunting and fishing adventures and intensive use of gear and tactics. Emphasis is placed on moments that are instinctively associated with hunting and fishing. New to the series is a reworked shooting system known as VITALS Visually Integrated Targeting and Lockon System that allows the player to focus on delivering an accurate shot to the prey's vitals. The game received favorable reviews from critics, with praise given for improvement from previous installments of the series. Unlike the first game, this one only has the story mode and lets you shoot whatever you encounter. Emphasis is placed on moments that are instinctively associated with hunting and fishing, like deer stalking, squeezing the trigger, hooking a fish or snaphooting a flushed bird, all while respecting real life hunting rules and regulations. Players can also upgrade their hunting gear with authentically branded real life equipment. It features fishing, bird hunting, and hunting for bigger game.

In the 50 planned outings that are available for play, virtual outdoorsmen and women can set their sights on great variety of a herd animals, predators, and game birds, or cast a line for several species of fresh and saltwater fish. His guide, Ricky, tells him to first practice his wingshooting skills on some ringnecked pheasants. Then the player stalks up to a meadow where he sees a few bucks. The guide spooks the deer towards the player and he kills a 10 pt. buck. The player is told by the guide to hike to a ridge to get a view of some deer he spotted in the valley below. The player hikes through a forest, hunting blacktailed prairie dog and blue grouse, and gets to the valley and shoots the buck from a lower ridge. Then the guide tells the player to head over the next ridge to get to another deer herd. Once the player makes it to the narrow valley, the guide scares the deer toward him. In the next area, there is a buck grazing that is deaf because of a nearby waterfall. The player takes the advantage and stalks up and shoots it. Then he hikes through another ravine to get to a forest clearing where the guide put scent spots to attract the deer. The player hikes to an outcropping to wait, where he sees a 6. point buck and shoots it. Then the player is in a blind and is told to hunt some mallard ducks and then he goes to fish for white bass and crappie. The player is stalking a group of deer but when he shoots one buck, the other runs away. The guide tells the player to hike up to a mountain ridge to get a view of the other side. Once the player completes a hunt for eastern turkey, he hikes up the mountain and shoots the other buck in the clearing below. Then he is told by the guide that he saw a large buck in a valley and that the player should take it, after he hunts cottontail rabbits. After some hiking, the player stumbles across a battle site and spooks the trophy, and he shoots him on the run.

After the player hikes up a slope where the guide set up a blind to hunt Merriams turkey, he calls them in. After the player hunts one, he goes to a lone tree to set up a tree stand and call in an elk. Then the player is on a forest slope when the guide tells him to practice his shooting on some yellowbellied marmots. After that, the guide tells the player that he spotted a mule deer herd in a clearing up the slope. The player hikes up there and bags one of them. After that, the guide makes a deal with a rancher so the player can hunt coyotes. After this, the player continues toward a lake where there is another mule deer herd. After hunting a buck there, he goes to another area where there are two small mule deer bucks in a blackberry patch. Once he bags them, he heads down to a clearing where the guide says he spotted some elk. As soon as the player gets in a tree stand, an albino elk suddenly appears. After killing two elk, the player heads off to fish for smallmouth bass and rainbow trout, then hunt for bluewinged teal. Next he goes to an area where the guide has spotted some mountain goat. After killing a goat up on some rocky ridges, the player heads to an area where there are more goats. Once he bags a darkcolored mountain goat, the guide informs him

of a large bull elk. After he finds the bull elk and his herd across a river, the player shoots him with a pistol. After hunting a Columbian blacktail buck, the player goes to another area where, because of a nearby cabin, he can only use a pistol. After bagging two blacktail bucks, he goes to a river where there's a woodland caribou herd. Once the player calls in and kills a bull caribou, he goes to a lake where, after hunting some ruffed grouse, he has to sneak past some does to shoot a buck. After this, the player hunts Canada geese and fishes for brown trout and walleye. Then the player goes near a lake where he finds two blacktail bucks. After taking both bucks, the guide tells him to hunt black bear.

Following a hunt for raccoons, the player finds the bears bedding area and waits for him. After bagging the bear, he goes to an area where there's a huge caribou trophy. The player calls him in and shoots him. The guide tells him of an elusive, piebled Sitka deer buck ahead. You stalk up to the Sitka deer herd, however the piebled buck runs away. Then the player goes to an area where there are moose. After setting up a decoy and taking a bull moose, the player heads over to a small pond where the piebled buck is, hunting fox squirrel along the way. Although the elusive buck gets away again, he is able to shoot another, smaller buck. The guide then warns the player that he's heading into bear country. Sure enough, he finds two brown bears near a river. After following them downstream, the player successfully kills both bears with a muzzleloader. Then the guide informs him of an even bigger bear nearby. After crossing the river and hunting whitetailed ptarmigan, the player finds the large bear outside a cave and kills him. Then the player hunts for harlequin duck and fishes for northern pike and Chinook salmon. After this, he goes after the piebled buck again. After following the elusive buck through a few bedding areas, the player finally calls him in and shoots him with a bow. Retrieved June 25, 2011.
